# 

GRC Limited

#### **BCM GRC Ltd**

- Manufacturing GRC since the late 1970's
- Early members of the GRCA

- Dedicated GRC manufacturing facility in Whitchurch, Shropshire
- Manufacture and design a range of GRC products and bespoke architectural projects
- 1<sup>st</sup> architectural project was Huddersfield technical college in 1982

### **BCM GRC Ltd – Factory Facilities**

- Sales and in house detailing (3<sup>rd</sup> Party engineers used)
- Mould making
- Production Manufacture to the GRCA specification for the manufacture, curing and testing of GRC products—Grades 18, 18P and 10P GRC
- Capacity up to 75 tonnes per week
- Architectural output typically 5 tonne per day (65m2 + per day)
- Grit Blast & Finishing
- Material testing & QA

## **BCM GRC Ltd – Testing**

- Daily in house tests for each spray station in use
- GRCA Methods of Testing Parts 1 − 5
- Project specific testing as required
- Independently audited QA system
- GRCA Full Member

#### **BCM GRC Ltd – Victoria Gate**

- Concept was for a High End retail development based around a complex precast concrete clad John Lewis store
- All materials were selected for their appearance, quality and ability to be manufactured in the complex shapes required
- Design intent and cladding zones around doors required complex moulds and panels

#### **BCM GRC Ltd – Victoria Gate**

- 2016 Leeds
- Client: Hammerson Developments
- Architect: ACME
- Main Contractor: Sir Robert McAlpine
- 1000m2
- 360 Panels
- 26 Weeks Production
- Awarded "Best Shopping Centre in The World 2017" at MIPIM

- 3 of 12 ROC's, which replace signalling boxes across the UK
- Cost over runs and design issues with early schemes were a major concern
- Continuity of design required to manage costs and build time
- Common building was developed to assist the design process and build programme
- High repetition of panel and installation detail improved the design time,
  subsequently increasing the production output and reducing the installation time.
- Lessons learned from 1<sup>st</sup> building rolled in to 2<sup>nd</sup> & 3<sup>rd</sup> buildings.

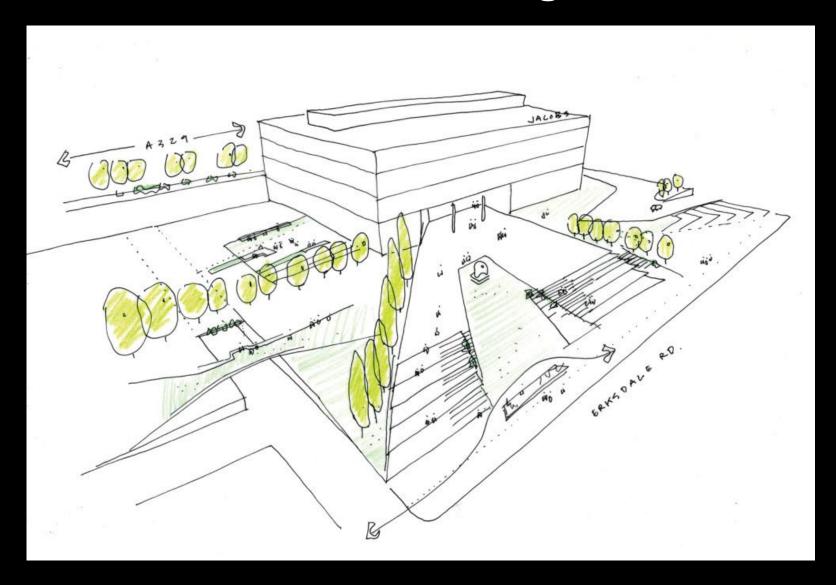

- 2011 Three Bridges, Crawley
- Client: Network Rail
- Architect: NWR/ UMC Architects
- Main Contractor: C Spencer Ltd
- 1600m2
- 1400 panels
- 8 Weeks Production

- 2013 Manchester
- Client: Network Rail
- Architect: NWR/ UMC Architects
- Main Contractor: Morgan Sindall
- 1600m2
- 1500 panels
- 12 Weeks Production

- 2014 Romford
- Client: Network Rail
- Architect: NWR/ UMC Architects
- Main Contractor: Volker Fitzpatrick
- 1800m2
- 1500 panels
- 16 Weeks Production

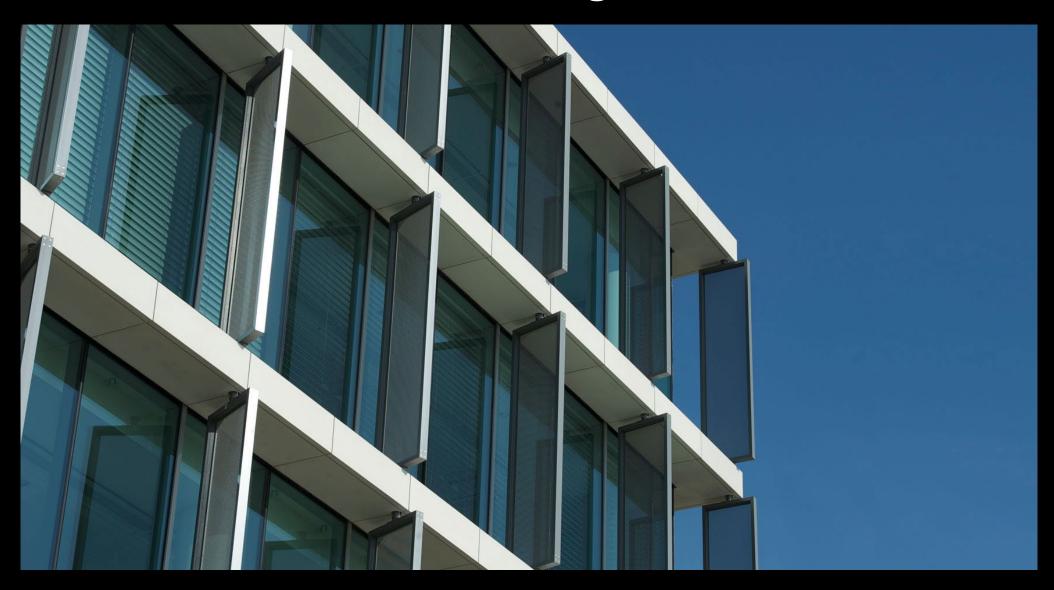

- Part of the Winnersh Triangle Business Park now IQ Winnersh
- GRC cladding embellishment to a fully glazed building
- GRC to compliment glazing and brise soleil whilst adding a feature band to disguise the floor structure
- Projecting steel members supported GRC and brise soleil, with holes in the joints for connections.
- Two piece unit, soffit and then nosing and upper unit in one.

## BCM GRC Ltd – Jacobs Building

- 2008 Reading
- Client: SEGRO
- Architect: EPR Architects
- Main Contractor: Wates Construction
- 1700m2
- 590 Panels
- 8 Weeks Production

# **BCM GRC Ltd – Other Projects**

# **BCM GRC Ltd – Other Projects**

Royal Welsh School of Music and Dance, Cardiff 2009

Snowhill Building 2, Birmingham

### **BCM GRC Ltd – Other Projects**

#### Cladding

- Athletes Village London
- East Side Locks Birmingham
- Kingsgate House London
- Neo Bankside London
- Office 9 Hull

#### Columns

- Spinningfields Manchester
- Queen Mary University London
- Blackfriars Station London
- Southmead Hospital Bristol
